MANO 12

The magnifier with TTS function and separate stand

MANO 12 has a screen diagonal of almost 30 cm and offers a FullHD touch display as well as a read-aloud function. Weighing around one kilo, the magnifier is light enough to be a reliable companion on the go.

MANO 12 can be operated using the tactile buttons or the touchscreen. You can save images and texts in the internal gallery. The MANO 12 and the separate reading/writing stand can be stored together in the shoulder bag, so that you can also write postcards comfortably on vacation, for example.

If your eyes need a break, you can use the integrated text-to-speech function, which captures an entire A4 page at the touch of a button and reads it aloud in a natural voice. If you tap on a word in the captured document, the text will be read to you from that point on. You can connect headphones to continue listening undisturbed when you are on the move.

Your advantages at a glance

- FullHD 12" display (approx. 29.4 cm diagonal)
- approx. 2.7 to 19x continuous magnification
- razor-sharp image at all times thanks to Full HD camera and autofocus
- integrated read-aloud function captures an entire A4 page
- easy operation via the tactile buttons or the touch display
- Gallery, line ruler and mask
- fold-out stand, separate reading/writing stand, HDMI and USB connection
