MANO PRO

The innovative video magnifier with smartphone connection

Whether at school, at work, or at home, MANO PRO offers maximum flexibility in every situation with its split-screen function, freely movable distance camera, and the option to display an external device.
MANO PRO has a document camera and a powerful distance camera. Unlike other video magnifiers, MANO PRO can also magnify content from your smartphone or tablet and display it in various semi color combinations, just as you are used to from a conventional video magnifier. Whether Android, iPhone or iPad: your smartphone or tablet can be operated directly on the MANO PRO screen.
MANO PRO not only supports reading, but also offers text recognition and read-aloud functions in various languages.

Your benefits at a glance

- 3-in-1 functionality: document camera, distance camera, and device mirror function
- 17.3″ touchscreen with matte finish
- easy connection to mobile phones or tablets for magnified display of digital content
- control smartphones and tablets directly via the MANO PRO touchscreen
- rotatable screen for horizontal and vertical viewing
- full-page mode: enlarge and navigate through documents without having to move the page
- text recognition and read-aloud function
- compact, lightweight and portable design with long battery life
