topolino smart 2K

The camera system with 2K resolution for flexible use

topolino smart 2K supports pupils, trainees, students and professionals in all tasks based on reading and thus secures integration. 2K resolution in distance viewing mode in combination with a high grade of mobility – is the ambition of this product development: moving to different classrooms, offices, etc. – with topolino smart 2K you have the right product to support you.

topolino smart 2K is being installed within seconds. All individual adjustments made are being saved when switching from distance viewing mode to reading mode and will be recalled. The dimming light is helpful when reading at different locations with different light conditions to eliminate fatigue of your eyes.

In combination with a notebook or tablet, images can be saved and videos recorded.

Your benefits at a glance

- space saving and light weight reading-/distance viewing camera system at highest resolution of up to 2048 x 1280p* (in distance viewing mode)
