

MANO 5

The lightweight magnifier

MANO 5 has a low-reflection, matte display and magnifies the reading material continuously up to 20x. The folding handle enables use like that of a conventional hand magnifier. With the stand folded out, you can also write under the magnifier without having to hold it in your hand at the same time.

You can view the reading material in true color as well as in one of up to 19 semi color combinations. The freeze mode allows you to freeze the image, for example, to take a closer look at something on a higher shelf while shopping.

Thanks to the low weight of only 7 ounces, the handy format and the easy operation, MANO 5 is the perfect everyday companion and makes life easier both at home and on the go.

Your benefits at a glance

- intuitive operation with only three function keys
- clear 5" display with a matte screen
- approx. 4 to 20x continuous magnification
- low weight of 199 g (without handle), ergonomic design with fold-out stand and optionally attachable handle (included)
- three different semi color profiles with up to 19 selectable semi color combinations
- freeze function, energy saving mode, key tones, vibration feedback, TV connection
